EXPERIENCE

Currently I am doing training from Pepcoding from 2nd Feb 2020 and am also connected right now from Pepcoding.

The internship includes training in Advanced Data Structures and Algorithms in java language and focuses on learning and developing new skills and gaining a deeper understanding of concepts through hands-on application of the knowledge we learned in class and solving and clearing the doubts of others in the class.

PROJECTS

Pepcoding Automation — An Automation Script which open by itself using credentials which I give and submit the solutions by itself which I have already written in editor.

HackerRank Automation —

An Automation Script which adds the moderator in all the questions of the HackerRank using Puppeteer.

Microsoft Excel Clone —

A Microsoft Excel spreadsheet Clone using HTML, CSS, EJS, jQuery, JavaScript, and electron which is used for the desktop app. And the app is preforms functions like change color of cells, sizing, alignments, and performing formula which works perfectly and changes also persist with all properties.
